

# Cohesity Data Cloud for AI-powered Data Security

	Core Edition For essential data protection and ransomware remediation	Enterprise Edition (Recommended) For protection against sophisticated cyber threats and rapid response and recovery in critical situations
<b>Enterprise Data Protection</b> Simplify backup and accelerate immutable data recovery on-premises, at the edge, or in the cloud.	✓	✓
<b>Instant Mass Restore</b> Recover VMs instantly with unlimited and fully hydrated snapshots.	✓	✓
<b>Multi-Protocol Backup Target</b> Immutable backup target for apps and data that can be accessed via NFS, SMB or S3 with unified permissions.	✓	✓
<b>Instant NAS Volume Access</b> Make NAS backup datasets immediately accessible to users without any data transfer for faster operational recovery.	✓	✓
<b>AI Operational Assistance</b> Get self-service support with natural language. Speed anomaly investigation and remediation with a cyber recovery assistant.	✓	✓
<b>Digital Jump Bag™</b> Ensure rapid access to secured critical information and trusted tools needed to initiate incident response and rebuild systems.	✓	✓
<b>Ransomware Anomaly Detection</b> Detect potential ransomware attacks by continuously monitoring backup snapshots for abnormal data changes.	✓	✓
<b>Cohesity CERT</b> (Cyber Event Response Team) service Get fast, expert-led recovery from cyberattacks.	✓	✓
<b>Threat Containment</b> Isolate and block recovery of infected data.	✓	✓
<b>Threat Hunting and Monitoring</b> Detect threats early and prevent reinfection with built-in threat intelligence feeds and custom-defined patterns.		✓
<b>Sensitive Data Classification &amp; Monitoring</b> Find sensitive and regulated data and reduce false positives with AI-based data classification.		✓
<b>Cyber Recovery Orchestration</b> Streamline recovery with customizable automated workflows for specific recovery objectives and compliance requirements.		✓

Extend the power of the Cohesity Data Cloud with these add-ons:

Replication	Cyber Vaulting	Data Insights	Cohesity Platinum Service
Improve availability, performance, and business continuity with data replication.	Enhance cyber resilience with an immutable copy of data in a Cohesity-managed vault.	Use AI-powered search to get trusted answers from your backup data.	Resolve issues faster and optimize operations with direct access to a Cohesity Designated Support Engineer (DSE) and Technical Account Manager (TAM).

Cohesity subscription licenses are available as 1, 3, or 5-year subscriptions and include software premium support (24 hours, 7 days a week, 365 days a year). During the subscription period, customers automatically receive software upgrades and new capabilities included in the bundles at no additional cost.
